

Tovey Engineering

2-Day Calibration Workshop for Force Measurement

Registration Form

Tovey Engineering Calibration Workshop on Force Calibration and Measurement, March 11th & 12th, 2025 will be held at our headquarters and manufacturing site located in Phoenix, AZ 85027

This is an in-depth course on force calibration presented at a metrology-level and intended for calibration technicians, load cell users, and managers tasked with evaluating force measurement programs, certifying in-house results, or applying ASTM or ISO standards.

The course covers best practices in force calibration and compliance with ASTM E74, ASTM E4, ISO 376 and other force standards. A review of torque cells and torque calibration will be presented, provided there is sufficient interest from the attendees. Class size is limited, and attendees save \$100 with early registration.
